

## Odometers management on MXx 1.2/MXx 1.2 Strada devices

## Question:

How can I manage my MXG 1.2/MXS 1.2/MXP/MXG 1.2 Strada/MXS 1.2 Strada/MXP Strada odometers?

## Answer:

- Press "MENU", scroll to "Counters" icon using "next" and "prev" buttons: press "ENTER"
- five odometers shows up all set "Active" by default: one labelled "System" and four labelled "Usr" from 1 to 4
- "System" odometer can only be activated/stopped, while the four "Usr" ones can be: activated/stopped and reset.

	Counters								
P R E V	System: Usr 1:	17:33 00:19	 	1335 72	km km	*Active* *Active*	E N T E R		
	Usr 2:	00:02	1	10	km	*Active*			
	Usr 3:	00:07	/	25	km	*Active*			
N E X T	Usr 4:	00:13	1	46	km	*Active*	E X I T		

• To reset the odometer scroll to "Clear" option and press "ENTER", the odometer resets as shown for "Usr 2" here below on the right.

	Counters						
P R E V	Usr 2: Status:	00:02 /	10 km Active				
NEXT			Ę				

	Counters								
P R E	System:	17:33	1	1335	km	*Active*	ENT		
V	Usr 1:	00:19	1	72	km	*Active*	R		
	Usr 2:	00:00		0	km	*Active*			
	Usr 3:	00:07	1	25	km	*Active*			
N E X T	Usr 4:	00:13	1	46	km	*Active*	EXIT		

## **Remote Buttons Interface**:

In case your device buttons are in a position that makes them difficult to push you can use AiM Remote Buttons Interface (part number **X08RTN010**).

It features six contacts to connect to six different buttons:

- the first four simulate the four systems buttons
- the fifth turns ON/OFF the backlight
- the sixth resets the first active user odometer.
